## THE RIGHT TIME TO CURE CATARRH

Rickert & Wells Guarantee Hyomei Will Cure If Used Now.

The early summer, when the weather becomes warm and settled, is the best time of the whole year to treat catarrhal troubles with the expectation of complete and lasting relief.

Everyone who has catarrh of the head and throat should know how foolish it is to try and cure it by drugging the stomach.

Until recently your physician would have said that the only way to cure catarrh would be by a change of climate, but now with Hyomei you can carry a health-giving climate in your purse or vest pocket, and by breathing it a few minutes four times a day soon cure your catarrh.

Everyone who has catarrh, or even a tendency to catarrh, should use Hyomei now, for the benefit will be gained twice as quickly and the disease thoroughly eradicated from the system.

The complete Hyomei outfit costs but one dollar, and includes a neat pocket inhaler, a medicine dropper, and sufficient Hyomei for several weeks' treatment. The inhaler lasts a lifetime, and if more Hyomei is needed, extra bottles can be obtained for 50 cents.

In Barre there are scores of well known people who have been cured of catarrh by Hyomei. If it does not cure you, Rickert & Wells will return your money. This is the strongest evidence they can offer as to their faith in the remedy.

### NOW IN WOODSVILLE.

Tobine Is Being Held for Assault Trial.

Woodsville, N. H., June 9.—Restless and uneasy, J. Frank Tobine finds but little to occupy his attention while he is anxiously awaiting news from his wife in Manchester, who, he hopes, will be able to raise the necessary securities that will give him his freedom. Tobine says that he expected to hear by today from his wife and hoped that he would not have to pass much more time in his cell in the Grafton county jail at Horse Meadows.

Should Tobine's wife or his relatives secure the \$300 bonds under which he was placed by Justice Smith of Grafton, it is doubtful if the county officials would consent to his release. Deputy Sheriff C. M. Murray when asked whether or not it was probable that Tobine would be released should bail be procured, said he might not.

Though the evidence in the possession of the authorities at the present connecting Tobine with the disappearance of the Braley child is very slim, it is believed that Tobine's confinement will bring out certain facts that they are anxious to learn.

### Securing New Industries

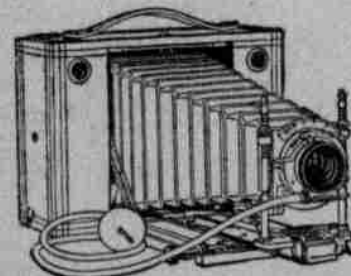

There are few places of any importance in Vermont the growth of which could not be promoted, if the thinking people therein were to direct their energies toward improvement of existing possibilities. Nature has been lavish in her dispensation of what are known as natural resources throughout Vermont, and these have not been developed as they should have been developed in a great number of cases. Then again there are opportunities for new industries that are not dependent on location merely, and the man or association of men who make two industries flourish where one grew before is a public benefactor.

Burlington has gained not a few industries in previous years through the cooperation of our public spirited citizens with the authorities, and not a little of our prosperity is to be attributed to the growth thus encouraged. Just at present we do not appear to be doing much in this direction, certainly not what we should be doing to secure new industries, but our people are not to be condemned too severely. They may be waiting for the clouds to roll by.—Burlington Free Press.

### To Glenugie Club Members.
